CMU Portugal Program Summit 2022

Over 170 people gathered to discuss research progress in ICT under the Program!

On November 9th and 10th, the CMU Portugal [Summit 2022](#) “[New Frontiers in tech](#)” gathered 179 members of its community for two days of discussion on cutting-edge topics in ICT. The Summit was hosted at the Factory Lisbon with members of the CMU Portugal's community from the US and Portugal.

The CMU committee counted sixteen faculty members, including the Dean of the College of Engineering at CMU, Bill Sanders, and the University's Provost and Chief Academic Officer, James H. Garrett. They were joined in Lisbon by many CMU Portugal students, faculty & researchers from Portuguese partner research Institutions, and representatives from Portuguese partner companies, Fundação para a Ciência e a Tecnologia, and the Embassy of the United States of America in Portugal.

Summit 2022 E-Poster Gallery

The CMU Portugal Program Summit 2022 counted with a **high participation of CMU Portugal students and researchers, with 54 posters submitted**, allowing them to present their research work at the Poster Sessions held throughout the Summit. The posters were exhibited during the two days at Factory Lisbon's rooftop and were an excellent way for the CMU Portugal community to interact during coffee and lunch breaks. The Exhibit continues even after the end of the meeting with all the posters available [online](#).

Summit 2022 Session News

The event was a success and over the two-days we had **179 participants, 4 keynotes, 2 roundtables and 7 project sessions**. It was a great pleasure to have the CMU Portugal community together and face to face again.

Above all, this Conference was about getting people together: Ph.D. Students and Alums of our educational initiatives, Researchers and Faculty from CMU and Portugal, partners from Industry, non-corporate entities, and Institutions of the Portuguese R&D System that are a key part of the Program.

All gathered to celebrate and share what has been accomplished in the past 16 years, and establish the groundwork for the future in a joint commitment to keep defining the "New Frontiers in Tech"!

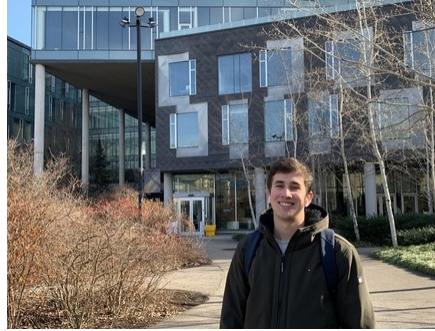

Summit News

CMU Portugal Visiting students

Between October and December 2022, a **group of eight talented master's students and recent master's graduates from Portuguese Institutions** had the opportunity to spend a **research period at Carnegie Mellon University under the CMU Portugal Visiting Students Program**, supported by CMU Portugal and Fundação para a Ciência e a Tecnologia (FCT).

You can follow their experience on CMU Campus on our social networks ([Instagram](#) | [Facebook](#) | [Twitter](#) | [LinkedIn](#)) with some of the great images taken by this group of 8 Visiting students!

CMU Portugal Scientific Director Luís Caires Seminar at CMU

Luís Caires, CMU Portugal Scientific Director from FCT NOVA, spoke with the CMU community during the Principles of Programming Group (PoP) Seminar. The session named “Concurrent Programming with Sessions and Shared State, in Linear Logic” was focused on stateful programming involving sharing and concurrency as is common place in modern software development, and the challenges of getting complex concurrent code right, even for skilled developers.
