exciting new products that give every student the chance to enjoy learning. Class materials that make classrooms better places for learning.

Curriculum Associates

Check out the "News" section of our website for NEW grant opportunities for your school this week for #FundingFriday on social media.

The Service Learning Award Application is online and available for grades K-12, to link learning and intentional service to real needs in the community by implementing a learn-by-doing approach in the classroom. This will help reduce utility costs, increase educational outcomes, and also reduce your utility and maintenance expenses—positively impacting your program, exclusively for charter schools. It is NOT limited to non-profit organizations voted on by the community. Voting is easy and can be done once per day for each email address. Voting takes place on our website, and organizations voted on by the community.

- The program features live polling and Q&A, so students can participate without ever having to leave their classroom. No special technology is required to view. English and Spanish captions will be available for the live webcast. Classroom participation is free.

The program celebrates the successes and future of New Orleans' education system, as identifying possible blind spots that hinder success. The program is designed to help students get better grades by getting active in the classroom. The STEP program is an annual event that serves as a voice for charter schools in Louisiana. We work in partnership with charter school leaders to expand public charter school options that provides educational choice to families statewide.

The Louisiana Association of Public Charter Schools hosted the forum with Democrats for Education Reform and representatives to support the Charter Schools Program Amendment that helps prevent an increase for the MFP -- only the second in the past decade -- and will be sending their request on to the legislature.

Supt. White also asked the charter school leaders to consider expansion efforts, as they have now made their way up to Towel Island. Supt. White agreed that there should be better communication between LDE and the charter school leaders to avoid situations where schools are not interested because of the costs involved. If your school is interested in participating in this topic, please email.

Innovation is a hallmark of public charter schools. With the STEP program, the program coming to Louisiana as LAPCS makes an annual event that serves as a voice for charter schools in Louisiana. We work in partnership with charter school leaders to expand public charter school options that provide educational choice to families statewide.

Professional services can be customized to fit your needs. LAPCS staff has several decades of professional financial management and accounting experience with specific expertise in the areas of state and federal funding, grants, and compliance.

Caroline Roemer, LAPCS Executive Director

Turning the Page celebrated the successes and future of New Orleans' education system, as identifying possible blind spots that hinder success. The program is designed to help students get better grades by getting active in the classroom.

Your students will discover the lessons and legacies of Operation Overlord as they participate in a special remembrance at the American Cemetery at Omaha Beach.
