From My Perspective...

Many students, myself included, entered college undeclared, I thought I wanted to go on one path, and after two years of struggling and not being truly satisfied with that path, I decided to change my major. I can not begin to tell you how many different majors I considered, I decided to do Environmental Science because I love the outdoors and I knew I would never find another major that I could do that. I'm so glad I made the switch because I love it. It was not an easy decision, nor was it an easy transition, but I love where I am now. We all struggle with decisions sometimes, and that's okay! As long as you do your own research and consider all of your options, you will eventually find the perfect fit for you. It's okay to take your time and be unsure, just know that you are capable and you will get through this! - Shayla

Get involved by:

- Participate in Welcome Week activities associated with your major
- Participate in student government
- Ask your professors about student organizations and campus events
- Check your UWL email inbox for information about signing up for your move in arrival time
- Find Move-in Days information on our website
- Email Lisa Weston (lweston@uwlax.edu) to get more information if needed

If you have received your email about move in? (Double check your spam, junkmail, and clutter.)

If not, send an email to Lisa Weston (lweston@uwlax.edu). She'll be happy to make sure you receive the information you need.

Make the most out of your UWL Experience!

This Week's Edition:

- Financial Aid Feature of the Week
- From Our Perspective....
- Take advantage of the Financial Aid feature at uwlax.edu/scholarships to find out what's available to you.
- Apply for scholarships!
- The UWL Scholarship Resource Center has a database of scholarships available to all students. This is a great resource to find funding for your education. If you're interested in scholarship opportunities, you can find more information on the UWL Scholarship Resource Center's website.

Financial Aid Feature of the Week

Campus Cakes - Let Campus Cakes help celebrate your student this school year and place an order today! They offer a variety of cakes, cupcakes, and other sweets. Order forms can be found on their website. Questions can be directed by email to amacampuscakes@uwlax.edu.

Unsubsidized loans. Both loan types have an interest rate that is fixed for the lifetime of the loan, based on the interest rate at the time that the loan is borrowed.

Subsidized vs. Unsubsidized Loans

It's important that students understand the types of loans they are offered as well as the impact each will have on their future. Subsidized loans are a type of loan that the federal government pays the interest on for the borrower while they are in college full-time. Unsubsidized loans do not have this benefit and the borrower is responsible for paying the interest from the time the loan is made. Both loan types have an interest rate that is fixed for the lifetime of the loan, based on the interest rate at the time that the loan is borrowed.

Both loan types have an interest rate that is fixed for the lifetime of the loan, based on the interest rate at the time that the loan is borrowed.

Choice of Loan

Whether you choose to go with a subsidized or unsubsidized loan, it's important to be aware of the difference between the two. Subsidized loans have an interest rate that is fixed for the lifetime of the loan, based on the interest rate at the time that the loan is borrowed. Unsubsidized loans do not have this benefit and the borrower is responsible for paying the interest from the time the loan is made. Both loan types have an interest rate that is fixed for the lifetime of the loan, based on the interest rate at the time that the loan is borrowed.
