From My Perspective...

As a first-year student at UWL, I've experienced a lot of changes and growth. One of the most significant aspects of college is the opportunity to explore different paths and develop new interests. When I entered college undeclared, I thought I wanted to go on one path, and after two years of exploring many of my options, I have decided what I am completely passionate about.

To help with this exploration, I recommend participating in student government, going to career/major exploration fairs, and attending the Connections fair on September 13 and 14th. These events provide a great opportunity to meet new people and learn about different majors and careers. The Connections fair also offers a chance to join special interest organizations that align with your interests.

In addition to these opportunities, I encourage you to be involved on campus and don't be afraid to try new things. There are so many clubs, events, fairs, and organizations to explore, and you never know what you might discover.

One of my biggest pieces of advice is to get involved on campus and don't be afraid to try anything, even if you don't end up liking it! There are so many clubs, events, fairs, and organizations to explore, and you never know what you might discover. Take advantage of the opportunities available to you at UWL and make the most out of your college experience.

The UWL Financial Aid Office encourages students to only borrow what they need. By doing so, you can limit what you will need to pay on your university bill or for living expenses during the school year. Consider saving as much of your earnings from your summer job and using that money to pay on your university bill or for living expenses during the school year.

Subsidized vs. Unsubsidized Loans

The Federal Direct loan program offers two types of loans for students, Subsidized and Unsubsidized. The Subsidized loan is subsidized by the federal government who pays the interest on the loan until the student enters repayment. The Unsubsidized loan will begin to accrue interest immediately once the loan is disbursed. You can choose to pay interest as you go, by making payments through your Unsubsidized loan while you are in school and during your grace period. This is the better of the two options.

How To Limit What You Borrow

If you know you will not need the loans offered to you as part of your financial aid award, we encourage you to stop in to meet with one of our staff if you have questions or concerns about financing your education. There are several ways to limit what you will need to pay on your university bill or for living expenses during the school year. You can consider saving as much of your earnings from your summer job and using that money to pay on your university bill or for living expenses during the school year.

Ordering

Order forms can be found online. Questions can be directed by email to amacampuscakes@uwlax.edu. This program is run by AMA (American Marketing Association), which is a registered UWL student organization. Make the most out of your UWL Experience!
