Financial Aid Feature of the Week

Subsidized vs. Unsubsidized Loans

When you are completing your Free Application for Federal Student Aid (FAFSA), you will need to provide information about the types of loans you prefer to receive for the upcoming academic year. Each type of loan has its own benefits and restrictions, and you’ll want to carefully consider which of the two you’ll choose.

The Unsubsidized loan is not subsidized by the federal government and you are responsible for the interest. You may defer paying the interest during in-school and grace periods, but you should keep in mind that it will accrue interest while you are paying off your loans. This type of loan is used when the Subsidized loan is not available to you. The Unsubsidized loan does not have a limit on the amount you can borrow.

The Subsidized loan is subsidized by the federal government who pays the interest on the loan while you are still in school and during your six month grace period. This type of loan is used when you qualify for available aid and it is the better of the two options. This type of loan is limited to the amount you can borrow.

Whether it is an on-campus or off-campus job, working part time can give you the money you need for living expenses so that you don’t need to borrow as much in student loans. The less you need to borrow in student loans, the less you will need to repay in the future. This will encourage you to decline them in your WINGS student center.

If you know you will not need the loans offered to you as part of your financial aid award, we highly recommend that you decline them in your WINGS student center and apply for all scholarships that you have identified as being qualified for. This will help you to receive free money to help pay your university bill. Be sure to utilize the UWL Scholarship Resource Center to find new scholarships.

Welcome to Life at UWL

Your life begins at UW-La Crosse! As a new student at UWL, you can expect to experience many new opportunities that you’ve never encountered before. Your college years provide the perfect platform for you to explore many different fields and make a career decision. College is a challenging time, but it is also an exciting time to make new friends and create memories that will last a lifetime. Your university years can also be a time to learn about yourself and the world around you. This is the time of your life when you can make the most out of your educational experience.

Connections

The Connections Program isdesigned to help new students with transition to university life and to explore the many opportunities that are available at UWL. Each incoming freshman is assigned an advisor who can help you navigate the college experience and answer any questions you may have. Connections advisors can help you connect with university life and find the resources you need to succeed.

This program is run by AMA (American Marketing Association), which is a registered UWL student organization. Questions can be directed by email to amacampuscakes@uwlax.edu.
