News from the Fence

Open Call for Exploratory Research Projects

The CMU Portugal Program announces the Open Call for Exploratory Research Projects (ERP). The CMU Portugal Program has recently launched in Portugal, with the aim of boosting transatlantic research and innovation cooperation in the Information and Communication Technologies (ICT) domain. To this extent, the CMU Portugal Program is seeking proposals in the area of ICT, with a focus on the opportunities strategic relevance to the Program.

For this Call, the CMU Portugal Program is seeking proposals in the area of ICT, with a focus on the opportunities strategic relevance to the Program. The Program is seeking to support projects that will leverage the existing research and innovation ecosystem in Portugal to create new synergies with the world-renowned research and innovation ecosystem at Carnegie Mellon University. The Program is particularly interested in projects that have the potential to create new knowledge and technologies that can be transferred to Portugal and Carnegie Mellon University, and that can be used to develop new products, services, or technologies.

The CMU Portugal Program is an intensive research experience which consists in a cultural immersion at Carnegie Mellon University. It is open to students from all disciplines and all stages of their education, including master, PhD, and postdoc students. The Program provides a unique opportunity for students to work with world-renowned researchers and institutions, and to develop their knowledge and skills as researchers, while opening perspectives for career opportunities in cutting-edge fields of Information and Communication Technologies.
