Transparency, as a core culture value, means it is always better to be open and honest about all aspects of what we do. Mason launched a brand awareness campaign that was introduced to the Mason community in 2018. The campaign aims to reintroduce Mason to Northern Virginia and beyond.

As part of the hiring process for this job as Dean of George Mason University's College of Science, I promised, I have shared information from the Mason administration and within our own leadership team couldn't have considered our virtual situation thanks to COVID-19, when and where possible, as important part of our strategy for growth and prosperity.

One of the attendees asked me to describe my communication style and how I handle information. I explained my belief that transparency and information sharing builds trust and empowers ideation from the Mason community. And I promised that this two-way information exchange would be an important part of our strategy for growth and prosperity.
