Funding Educational Services Association (FESA), Help desk (virtual)

FESA provides educational technology support services to Mason's College of Science. FESA is an Educational Technology Service that investigates and handles tickets that seem to be the result of faulty equipment and software. FESA helps Mason Science students and faculty by providing assistance and support to help users better understand and utilize computing research.

Happening at Mason

Message from the Dean

Over this first year at Mason, I've worked to prioritize connecting and communicating within our Mason Science community as much as possible. Although that discussion during my interview early in 2020 couldn't have considered our virtual situation thanks to COVID-19, when and where possible, as promised, I have shared information from the Mason administration and within our own leadership team. I explained my belief that transparency and information sharing builds trust and empowers ideation from our group.

IN THE NEWS

High school student Comfort Ohajunwa is leading exceptional STEM education at Mason. Comfort Ohajunwa has been selected as an Outstanding Science Pharmacy Scholar (OSPS) in the field of science.

Fashioning Education Services Association (FESA), Help desk (virtual)
