GMU Researchers Help DHS Combat Illicit Trade on Wednesday, April 14 from 12:00 p.m. - 1:30 p.m. EST

GMU researchers and technology providers present "The Fight Against Illicit Trade: Using Digital Forensic Evidence to Combat Crime," a panel discussion focusing on cybercrime, financial crime, and the need for better and faster methods for law enforcement to process digital forensic evidence. This free webinar is part of the National Defense University’s William J. Perry Center for Hemispheric Defense Studies, the Department of Homeland Security’s Centers of Excellence Program, and GMU’s Center for Innovation and National Advancement (CINA). The webinar will be moderated by Dr. Allison Redlich, Director of CINA and an Assistant Professor of Practice in Criminology and Criminal Justice. The panel will be composed of subject matter experts in digital forensic evidence and internet crime who will discuss advancements and future projects and ideas.

About Dr. Dolliver

Dr. Diana Dolliver, a law enforcement professional with more than 20 years of experience, is a Professor of Practice in Criminology and Criminal Justice at George Mason University. Her research and practice revolve around the intersection of criminology, criminal justice, and technology, and she is interested in how a society’s reliance on modern technology and the conversations around it shape contemporary forensic practices. Dr. Dolliver is the founder of the Internet Forensic Science Laboratory, which will be one of only eight in the U.S. to use the newly created Forensic Science Research and Training Program’s new Forensic Science Research and Training Program. Her research and practice revolve around the intersection of criminology, criminal justice, and technology, and she is interested in how a society’s reliance on modern technology and the conversations around it shape contemporary forensic practices.

The webinar will be held Wednesday, April 14, 2021, from 12:00 p.m. - 1:30 p.m. EST. To register, please visit the webinar’s webpage, sign up for the GMU CINA email list, or contact Dr. Redlich at redlich@gmu.edu. Visit the COE Capabilities Showcase.
