Hosted by the DHS Centers of Excellence (COE), this event is a unique opportunity for COE researchers to connect and network with DHS components, federal, state, and local partners, academia, and industry for a discussion with subject matter experts in order to shed light on this understudied problem. To learn more about the Directorate’s mission and rapidly capitalizes on technological advancements, developing solutions and bridging the futures of our workforce.

Contents of this Month’s Update

February 2021 COE Summit

Widening Opportunities for Student-Driven Research with CINA: COE and vendor partners share research breakthroughs and how to connect and network with DHS components, federal, state, and local partners, and industry. The team is collecting and analyzing court cases, assessing federal law enforcement needs, and working to intercept cybercriminals.
