The Office of the Provost will once again host the Mason Vision Series which sheds light on the real-world applications for undergraduate, graduate, and postgraduate students. Email questions to the Department of Chemistry at chem@gmu.edu. Applications for Summer 2022 Virginia Statewide Life Science Internship Program are due by January 31, 2022.

Deadline January 31, 2022
Applications for Summer 2022 Virginia Statewide Life Science Internship Program

In her new role, Kimberly Davidson named University Ombudsperson

Erdal Yiğit, Associate Professor, Physics and Astronomy, released a study that posits dust storms may be responsible for the release of water into Earth’s atmosphere.

How did Mars lose its water?

Tracy Mason, Instructor, Computational and Data Sciences. Colchao, a Mason chemistry student, enhances the infographics for the courses.

Mason's Local Climate Change Planning Initiative, a comprehensive approach to climate change mitigation and adaptation for Mason and the surrounding area, will continue to publish this newsletter on Wednesdays with a content deadline of the Monday before publication.

Updated: November 30, 2021

The gift – what did you do with your 365?
