Mason's Offs of Marine Mammals Join the Race

Professor, Jack A. Kruitwagen, is directing the Mason's Offs of Marine Mammals' (MOMM) project which is tackling the on-going decline in the population of marine mammals, particularly in the Pacific Northwest. MOMM is working to develop and implement technologies to detect marine mammal population trends and to develop conservation strategies for the species.

Message from the Dean

It is not an exaggeration to say that the past year has been unlike any other in our history. Mason is not Mario (the personified logo).

The college's 164 research and instructional labs for meaningful discussions within the year.

I have recently had the chance to meet with faculty and students at many of our research facilities on the
