Spryngith at Mason

April 8, 2021 | 4 to 5:30 p.m.
Resistance and Resilience: Student Activism and Well-being

Refer to email for the meeting password.

The annual East Coast Optimization Meeting (ECOM) introduces students and early-career researchers to the national laboratories. Registration is required.

The Office of Sustainability (OoS) and the Institute for a Sustainable Earth (ISE) are pleased to announce the theme for this year's Earth Month: "Exemplify the University's Commitment to a Just and Sustainable Future for All." OoS and ISE are working together to create a calendar that will promote all of these events and opportunities to engage.

Tang Expanding Chemical Data Assimilation System To Support NOAA's Unified Forecast System (UFS)

The project aimed at expanding a chemical data assimilation system to support NOAA's Unified Forecast System (UFS). UFS is a national modeling system designed to support the Weather Enterprise and to be the source system for NOAA's operational modeling system. It is designed to support the Weather Enterprise and to be the source system for NOAA's operational modeling system.

IDIA: Innovation and Industry for the Improvement of America

Innovation. IDIA will select four compelling internally and with businesses, organizations, and universities to connect members of the Mason community to their powerful experiences and stories.

By Elizabeth Grisham

She Scientists: Health and Science Industry Week

Tuesday, March 30, 2021 | 5:30 p.m. – 6:30 p.m.

Hear from our Mason Science students about their experiences working with professional women in the sciences to learn about their unique and powerful stories.

Ziheng Sun

Research Assistant Professor, Center for Spatial Information Science and Systems (CSISS)
