The work of
Daniel Tong
Associate Professor,
Science.gmu.edu

The Office of Sustainability (OoS) and the Institute for a Sustainable Earth (ISE) are
highlighting initiatives and student-led projects to celebrate their collective impact on the
planet. This year’s Earth Month takes place from March 21 through April 21, 2021, in
observation of Earth Day on April 22.

Share your Earth Month initiatives
To share or learn about Earth Month initiatives on campus, visit our website
www.gmu.edu/earth-month. To ensure they promote and showcase your Earth Month programs, events, and initiatives together to create a calendar that will promote all of these events and opportunities to engage.

You and your undergraduate research students are encouraged to submit your
abstracts for the Mason Science Undergraduate Research Colloquium (URC) deadline
is March 31, 2021. The Undergraduate Research Colloquium is a fantastic opportunity to present your work to the Mason community. Abstracts should be no longer than 300 words and should include background information, research questions, methods, results, and conclusions.

March Madness for us takes on a new meaning (an aside for basketball fans, we are excited to announce our new Men’s Basketball coach). Researchers are busy, with preparations for the Undergraduate Research Colloquium (URC), Three Minute Thesis (3MT) competition, and annual events. Next week marks the beginning of the end of the spring semester. Various semester research presentations, and thesis defenses are well underway. These activities give us the chance to experience how our students are interpreting their learnings and offer me, and all of us, the chance to experience how our students are interpreting their learnings and understanding, and expand your own knowledge of subjects of interest.

The sun is usually shining and the cherry blossoms are sprouting across campus, and in our own backyards, this is my first time experiencing the spring semester at Mason. And what a glorious time it is. The sun is usually shining and the cherry blossoms are sprouting across campus, and in our own backyards, this is my first time experiencing the spring semester at Mason.
