Peace be unto you,

With the fall officially settling in and nature beginning to visibly change, I have been savoring opportunities to catch the sun for however long it may choose to be with us in the day. As the height of an incredibly tense election season arises, I’m sure many of you, like me, may be wondering how exactly these changes will impact both ourselves and
those we love, near and far. In this season of change, I offer this practice of looking to the sun for guidance and
direction and encouragement to try something differently in your day.

Growing up in Hawaii, the sun was an element that I often felt a connection with. It was constantly inviting me with its
bright aura to let my worries wash away and bask in the glory of all that is this day. I hadn’t realized how much I took
that for granted until moving to Cambridge and experiencing the winter and fall season. Less daylight meant more
time for introspection and going inside, both literally and figuratively. I am reminded of the great poet of the Harlem
Renaissance Arna Bontemps who comments

“*It is not wise to waste the life, against a stubborn will. Yet would we die as some have done, beating a way for the
rising sun.*”

African spiritual traditions believe that communication with the nature is a constant practice. Different elements – the
sun, earth, air, water, wind, lightening, thunder -- provide signs and symbols, rituals and rhythms that can deepen
our understanding of life and offer sustenance no matter what the internal state or condition of our life may be. On
this walk recently, I was reminded of how sweet the undoing, the unlearning, the letting go to become all of what we
might become can be if we allow ourselves the pleasure of trying things differently.

Today, wherever you may be Zooming into classes from, whether a kitchen table, bedroom, courtyard, living room or
outer place, I invite you to consider one element of your day that you might do differently. Maybe it’s taking a
different path to your favorite restaurant, calling the loved one who has been on your mind but who you haven’t
spoken to in a long time, writing a thank you letter to a neighbor, peer or friend who really helped you out recently. It
is these small acts of gratitude and affirmation that African spirituality offers up, to honor our ancestors and those
who’ve come before, so that we might have the courage to imagine new possibilities for what lies ahead with hope,
perseverance and genuine curiosity.

With warmth,

Azmera Hamouri-Davis
Africana Spirituality Advisor
