A Greeting From Your University Chaplain

Dear Tufts Community,

As we continue to savor the energy and joy of Commencement Weekend, we are also relishing the new rhythms of summer. These are days to reflect back on the learning, service, and growth of the academic year and to also dream about what is to come. These are days to dive deep into paused and new projects and time to connect with colleagues and students outside of the more rigorous pace of Fall and Spring semesters.

I hope that you will take your own time, wherever you are with work, life, and school, to re-charge, connect, and serve in ways that are life-giving and meaningful for you. And I hope that you will join us throughout the summer for walks, talks, and conferences as described below and that you will reach out to us to collaborate or just to check in! Our [Contact a Chaplain](#) form is active, and you are also welcome to reach out to any of our chaplains for conversation or spiritual care throughout these summer weeks.

Cordially,

Elyse Nelson Winger
University Chaplain

Deadline for ticket sales is July 9

**Propose a session for the
conference**

Deadline for proposals is May 1

Frontiers of Democracy is an annual conference at Tufts University's Tisch College of Civic Life that convenes practitioners and scholars for intensive discussions. In 2023, thanks to generous funding from the Arthur Vining Davis Foundations, the special theme of the conference is religious pluralism and its relationship to democracy in multiracial societies.

The religious pluralism theme is not exclusive. Most of the conference will be devoted to breakout sessions on a range of topics related to Tisch College's 'North Star': building robust, inclusive democracy for an increasingly multiracial society. While we will consider proposals for presentations or panels of presentations, we actively seek proposals for other formats, such as moderated discussions, meetings devoted to strategy or design, trainings and workshops, case study discussions, debates, and other creative formats.
