

Dear Colleague,

Wow, I can't believe it's already March! Which might mean spring for some of you (but not this Canadian Prairie girl). But that doesn't mean our clients in Europe aren't getting their Spring Specials ready.

[Iceland ProCruises](#) has released three Spring Specials that you can read more about below! And do you have clients wanting to experience the magic of Greece with [Pax More](#) this summer? It's not too late!

As always, don't hesitate to [book an appointment](#) with me if you want to learn more!

Take care & travel safe,

The Emerging Destinations team
Jenna, Jane, & Ana

Diamond Circle - Iceland's Magical North

Besides the famous Ring Road and Golden Circle, Iceland boasts another epic road-trip route along the island's north shore that connects the famous places and breathtaking natural wonders of the region: the Diamond Circle. The Diamond Circle (or "Demantshringurinn" in

Icelandic) is a popular new travel route in the north of Iceland. It covers around 250 km (155 miles) and passes through some of the most spectacular terrain and scenery on the island. [Continue Reading](#)

The Icebergs Cometh!

The vast Greenland Ice Cap produces 250 million tons of icebergs each summer and their final journey begins when they break off from tidewater glaciers and plunge directly into the island's crystal-

clear fjords. During its annual summer voyages to Greenland, **Iceland ProCruises** offers some cool shore excursions that get passengers up close and personal with some of the most amazing icebergs anywhere on planet Earth. [More Here](#)

Hiking the Laugavegur Trail

Those who want to be a little more active on their next visit to Iceland should trek the famous Laugavegur Trail. It starts in the Landmannalaugar mountains and finishes at the valley of God Thor. **Iceland ProTravel** offers an escorted hike that includes luggage and transportation to/from Reykjavik.

All You Want is Greece

Fun Fact:

Did you know that Greece is the third largest producer of olive oil in the world? Greeks have cultivated olive trees since antiquity. Some of the olive trees that are still producing olives date back to the thirteenth century.
