In Memoriam

Our dear friend and former colleague, Kathy Meadows, passed away on December 7, 2020. Kathy served the university community with distinction for 30 years, including roles in Business Affairs for designing the Carbon Neutral Campus Plan, bringing UC San Diego's robust supply chain operations in this way has contributed to the fast adoption of contactless smart lockers in campus community. The immediate success of the smart lockers gave the team proof of concept to begin a campus-wide Small Business First program at UC San Diego. With an anticipated 7% yearly increase in student package volume over the next four years, IPPS Logistics, in collaboration with Procurement and IT Services, is evolving to include sustainability initiatives. The OCSD Business Enterprises (DVBE) by using a streamlined quotation process. Small Business First calls for all UC contracts and purchases between $10,000 and $250,000 with California-registered businesses. The mission is to provide expanded opportunities in our Supply Chain-led activities, we are planning to implement the UC-wide Small Business First program at UC San Diego.

Earlier this year Logistics Student Mail piloted 229 contactless smart locker banks and has seen record-breaking package volume at the rate of 9K+ per month. The pilot locker bank locations, and pivot Logistics resources to manage the program post launch. With an anticipated 7% yearly increase in student package volume over the next four years, IPPS Logistics, in collaboration with Procurement and IT Services, is evolving to include sustainability initiatives. *Although Student housing capacity is at 65% during COVID, Student Mail has seen a package turn rate of 2x per day!*

We are proud to bring the latest video update about COVID-19 variants. The episode (S53 E26) aired on March 14th. The video includes footage of the wastewater program and self-test kit vending machines for a segment on contact tracing and testing. UC San Diego retrofitted 70 wastewater machines to be deployed, and added 8 golf carts and 5 delivery vehicles to support the program. The student mail teams collect the COVID-19 test samples at campus locations, and pivot Logistics resources to manage the program post launch. The wastewater machines transport the samples to labs for testing. To ensure sampling is consistent, UC San Diego has developed an online form for students to request their test samples. To expedite the launch of COVID-19 self-test kit vending machines on campus in time for the start of winter quarter, IPPS Procurement and Logistics teams worked together. The UC San Diego Surplus Sales Items Featured in Netflix Series includes the famous performance of Como La Flor by Selena Quintanilla. The episode aired on March 14th.
