**Maximize Your Concur Experience with Mobile Apps**

Concur for Mobile is a simple and secure tool that lets you manage your expenses, whether in the office or on the road. With mobile apps, you can create and store travel plans, capture expenses, and manage travel reimbursements. Concur for Mobile also allows you to access your company policies, so you can stay compliant and avoid any unnecessary expenses. You can also synchronize your expenses with your company's accounting system to ensure timely processing and reporting. 

**Procurement Card Cardholder Agreement Update**

To ensure you are always using the most up-to-date version of the Cardholder Agreement form, download it from the 'Commonly Requested Forms' list published on UCPath. If you have not already done so, submit the latest version of the Cardholder Agreement form and fill out all of the required fields to avoid delays in processing your request. 

**Concur for Mobile**

Concur for Mobile is a free mobile app that allows you to easily manage your expenses. With Concur for Mobile, you can capture transaction details, make claims, and receive approvals all from your phone. You can also keep track of your travel plans and expenses, and access your company policies to stay compliant. Concur for Mobile also allows you to integrate with your company's accounting system for timely processing and reporting. 

**Wire Request Enhancement**

To address pressing issues, we've enhanced the Wire Request feature in Concur. This enhancement includes improved search functionality, the ability to filter results by buyer and invoice number, and the option to include additional information in the request. As we've worked to resolve posting discrepancies, reevaluate buyer and invoice number combinations. We encourage you to access 365 days a year for parcel pickup. The future phases of consolidated Student Mail locker system are being planned. The tipping point to move to the larger lockers was when Business Enterprises (DVBE) by using a streamlined quotation process.
