Kathy Meadows (played by Christian Serratos) during the Spring 2014 filming. Her presence was felt by all. Several of her colleagues stayed in touch and were able to keep her spirits high in retirement. Kathy will be missed by many in procurement, but her impact on the organization continues to live on.

In Memoriam

The crew from the new Netflix series, "Daredevil," brought in gratis catering and a ton of AV equipment. Many of the Logistics' electric carts and golf carts were used as production vehicles. The crew followed the Logistics team around campus to capture footage for the show. The Logistics team was thrilled to be featured in a Netflix series.

Fun Fact

Small Business First (SBE) is a program that encourages and provides opportunities for SBs and other disadvantaged businesses to participate in local government and university contracts. To make this program more viable for our campus, we have implemented a tiered incentive structure. Three tiers have been created based on the following criteria:

- Tier 1: 3% Fee Waived for SBEs and/or DVBEs
- Tier 2: 5% Fee Waived for SBEs and/or DVBEs
- Tier 3: 7% Fee Waived for SBEs and/or DVBEs

We have also included a line for the Small Business First Program on our monthly quote forms. This way, departments are aware of the program and can take advantage of the incentives offered.

Awards

In the coming year, we will be working directly with Oracle and Concur to continually improve our systems and processes. In addition to Oracle Procurement and Payables, we are also working vigorously with many of you to ensure your departments have the tools they need to be successful. We are also leveraging the collaboration tools available through Oracle and Concur to effectively involve you, our clients, in this process and how to communicate change.

Carbon Neutral Last Mile

As part of UC San Diego's continued commitment to increase performance and sustainability, we will be piloting the use of electric last-mile vehicles in our campus-wide logistics operations. This initiative is part of our broader goal of reducing our carbon footprint and improving air quality on campus.

IPPS For Sustainability

The IPPS initiative is a program that promotes sustainability and environmental stewardship through procurement. Departments are encouraged to purchase goods and services that meet sustainability criteria in order to reduce their environmental impact.

Lockers to Campus

Earlier this year Logistics Student Mail piloted 229 contactless smart locker banks and retrofitted 70 wastewater machines to be deployed, and added 8 golf carts and 5 wastewater machines and transport the samples to labs for testing. To ensure sampling turnaround time for test results.

Wastewater Sampling

A team of 30 Logistics staff members manages the vending machine program 7 days a week. To ensure the campus community has 24/7 access to free and easy COVID-19 testing, a team of 30 Logistics staff members manages the vending machine program 7 days a week. To ensure the request is routed properly for approval, departments are required to submit an online request form for payment to foreign suppliers. The request form for payments to foreign suppliers (non-travel related) must be signed by the department head or their designee. Completed, online requests are awarded within 48 hours. To ensure the request is routed properly for approval, departments are required to submit an online request form for payment to foreign suppliers. The request form for payments to foreign suppliers (non-travel related) must be signed by the department head or their designee. Completed, online requests are awarded within 48 hours.

Sharing Knowledge on Procurement Card Blink

To ensure you are always using the most up-to-date version of the Cardholder Agreement, we have provided a signature agreement form, download it from the 'Commonly Requested Forms' list published on the IPPS quarterly page. We have also included a line for the Procurement Card Blink page in our monthly quote forms. To learn more about how these apps can work for you, sign up for one of our Concur Webinars. From the portal, you can access our Concur's App Center, located on your Concur home page. Both apps are only available via the Concur User Community. Use the Concur App Center to browse the Concur's App Center, located on your Concur home page. Both apps are only available via the Concur User Community. Use the Concur App Center to browse the apps, select the ones you need, and go. Concur for Mobile is a simple and secure tool that lets you manage your expenses, track, and share your travel plans so that you're always in the know while on the road. TripIt Pro is the world's leading itinerary management app – making it a snap to monitor, plan and Concur for Mobile go. Concur for Mobile

UC San Diego employees are eligible for free access to Concur’s App Center, located on your Concur home page. Both apps are only available via the Concur User Community.
