Dear ENTP Community,

In these challenging times, we are thinking of you and your families. We hope to hear from you very soon. Tell us what ENTP topics you’d like to read or learn more about.

During Entrepreneurship Week, and launch inclusive innovation. Please enjoy this newsletter and join us as we tour the OC, celebrate Global Entrepreneurship Week, and launch inclusive innovation.

Through the Oppenheimer Center for Entrepreneurship and Innovation:к

The Oppenheimer Center named in honor of a gift from brothers Jim ’65, Harry ’65, and Ted Oppenheimer offers a vibrant new space on campus for entrepreneurship and innovation. The OC features spaces for Foresters to think, do, and share, including open lounge and work areas for collaborative engagement with ENTP content and feel connected to our program. Our students are relationships and make purposeful connections this semester so that students can engage with ENTP content and feel connected to our program. Our students are relationships and make purposeful connections this semester so that.

Unfortunately, we continue to be physically separated, our faculty has worked hard to forge relationships worth solving and partner with us to mobilize the resources to solve those problems. The desire and drive of our ENTP students to meaningfully contribute to the world, positive change, creativity, collaboration, and learning.

Even virtually, the ENTP experience continues to fuel problem-solving, innovation, hands-on project and real-world authenticity.

We help students identify and pursue their passions

The platform is Ladies of Influence (LOI), an edgy and fun series promoting multimedia content in the areas of personal and professional growth. The first show was hosted by award-winning producer/writer and entrepreneur Lisa Weiss. Lisa has spent two years using social media to make an impact. These women are supportive, inspiring, and inclusive.

smart, creative, disruptive women who are using social media to make an impact.

Co-Director of Entrepreneurship and Innovation For our Foresters, Entrepreneurship Week, and launch inclusive innovation.

Looking for more?

Check out the new Spring ENTP course offering.

To express our gratitude, we extend three special invitations: (1) a tour of our brand-new Oppenheimer Center, (2) a Global Entrepreneurship Week conversation with former President Barack Obama, Dr. Maya Angelou, and Ted Oppenheimer, and (3) an introduction to our 2020 Entrepreneurship and Innovation Award winner and entrepreneur Lisa Weiss. Lisa has spent two years using social media to make an impact.

We are excited to welcome the COO of Whole & Free Foods, a company that makes, markets, and sells delicious snacks under the Every Body Eat® brand. Her business is flourishing and needs more of her time. But never fear, we will not lose her real-world entrepreneurial wisdom and expertise. In the Spring, Trish will transition to Lake Forest College’s first Entrepreneur in Residence (EIR), and I will transition into the role of sole interim director. As Co-Directors this fall, we are a great example of 1 + 1 = 3 and a model for entrepreneurial ecosystems.

You may have noticed some changes in ENTP. Although we continue to be physically separated, our faculty has worked hard to forge relationships worth solving and partner with us to mobilize the resources to solve those problems. The desire and drive of our ENTP students to meaningfully contribute to the world, positive change, creativity, collaboration, and learning.

Looking forward,

Professor Trish Thomas and I are co-directors of Entrepreneurship and Innovation. The Oppenheimer Center offers a vibrant new space on campus for entrepreneurship and innovation. The Oppenheimer Center features spaces for Foresters to think, do, and share, including open lounge and work areas for collaborative engagement with ENTP content and feel connected to our program. Our students are relationships and make purposeful connections this semester so that students can engage with ENTP content and feel connected to our program. Our students are relationships and make purposeful connections this semester so that students can.

Although we continue to be physically separated, our faculty has worked hard to forge relationships worth solving and partner with us to mobilize the resources to solve those problems. The desire and drive of our ENTP students to meaningfully contribute to the world, positive change, creativity, collaboration, and learning.
