Office Depot Name Change: ODP Business Solutions LLC
On May 1, Office Depot will officially change its name to ODP Business Solutions LLC. The Office Depot punchout will be updated to reflect the name change shortly after launch. The update will not change the functionality of the punchout or impact in-progress orders. The Accounts Payable and Strategic Procurement teams are working together to mitigate invoicing issues. Reminder: use the punchout search engine rather than the Oracle search bar when shopping for Office Depot (ODP Business Solutions LLC) items.

Default Day Announcement

Default Day announcement is moving to the first weekday of each month. This will allow transactors more time to make corrections before Monthly and Biweekly deadlines. The next Default Day is Monday, May 2.

How are you reviewing these transactions? Are they okay or do they always need to be corrected? How do you go about correcting them? This will be a time for fund managers to all share their best practices with each other.

New Report Release: Incorrect PPM Budget Resources
A new report has been released on the Department Exceptions Panorama. The Incorrect PPM Budget Resources report will display any PPM Budgets with resource categories that do not match UCSD Expenditure Categories. Using these Oracle categories is not recommended and can impact the view of other reports. Use the Incorrect PPM Budget Resources report to identify both sponsored and general project budgets needing correction.

For sponsored projects, Financial Resources may represent restricted balances. Please check with your SPF accountant before rebudgeting.

Additional Information:
New Report Release: PPM Budget Version History
Located on the Project Panorama, this report will show the version history for PPM Budgets. The Current Baseline budget is the active version and is highlighted.

Tips & Tricks

Don’t Use Special Characters in Requisitions
When shopping in Oracle Procurement, it is best to not use special characters including periods, commas, slashes, parentheses, or any symbols located above the numbers on your keyboard in the line item descriptions. Doing so may result in a PO not being generated, resulting in the requisitioner needing to duplicate, edit, and resubmit the requisition.
