**Oracle Redwood**

**New WalkMe Guidance**

Now that you have attended the Oracle Redwood Training (see December 9th) or the Redwood UI Orientation (see December 8th), you are likely thinking about navigating the new Oracle layout. We have updated the WalkMe guidance to assist you in managing your work in the new interface. Go to Oracle Test Non-Production Environment* to view changes launching in production January 2022.

**Central Administration Differential Income (DI) Assessment**

Beginning in FY22, the following central campus assessments will be captured in your assessment charges. For revenue-based assessments (i.e. ASSA and DI), there will be a 5-month period cutoff. If there is more than one Task that points to the same Fund and FinUnit, the assessment will be posted to the first task in PPM. If there is no active Task that points to the same Fund and FinUnit, the assessment will be posted to the FinUnit-Fund-Project combination where the revenue was received, assessment charges will post to the FinUnit-Fund-Project combination where the revenue was received, and the assessment charges will be posted to the first Task in PPM. If there is more than one Task that points to the same Fund and FinUnit, the assessment will be posted to the first Task in PPM. If there is no active Task that points to the same Fund and FinUnit, the assessment will be posted to the FinUnit-Fund-Project combination where the revenue was received.

In cases where there is no active Task that points to the FinUnit-Fund-Project combination where the revenue was received, assessment charges will post to the FinUnit-Fund-Project combination where the revenue was received, and the assessment will be posted to the first Task in PPM. If there is more than one Task that points to the same Fund and FinUnit, the assessment will be posted to the first Task in PPM. If there is no active Task that points to the same Fund and FinUnit, the assessment will be posted to the FinUnit-Fund-Project combination where the revenue was received.

**Oracle Test Non-Production Environment**

* You can view the upcoming Oracle Redwood UI changes in the Oracle Test Non-Production Environment. **SSO** required to view changes launching in production January 2022.

**Oracle Redwood Overview eCourse**

Review this short eCourse for a comprehensive overview of how to navigate the new Oracle Theme.
