## Campus Budget Office Updates

### Central Campus Assessments now in PPM

Beginning in FY22, the following central campus assessments will be transacted into PPM at the Project & Task level:

- Auxiliary and Self-Supporting Activities (ASSA) Administrative Overhead
- Central Administration Differential Income (DI) Assessment
- UCOP Assessment

For revenue-based assessments (i.e. ASSA and DI), there will be a 5-month catch-up (June 2021 – October 2021) that is planned for the November ledger period cutoff.

Based on the FinUnit, Fund and Project chartstring where monthly revenue

posts, a look-up is performed to find the matching Task in PPM. If there is more than one Task that points to the same Fund and FinUnit, the assessment will be charged to the lowest numbered task.

In cases where there is no active Task that points to the FinUnit-Fund-Project combination where the revenue was received, assessment charges will post to the FinUnit's default project with detailed information in the Comment field so that charges may be transferred after a new task with matching Fund DFF is created. As a reminder, the PPM cost transfer feature can be used to reallocate the assessment charges to different Projects and/or Tasks as needed.

For revenue that is posted to Project # 0000000 in the GL, assessments will also post to Project # 0000000 as no Project/Task info is known.

For more information on ASSA and DI assessment rates, [visit the SSA Guidance page on Blink](#). For questions related to all central campus assessments, [please submit a Services & Support ticket](#) using the following path so that it is routed to the appropriate contact(s) within the Campus Budget Office: *Budget & Planning > Central Campus Assessments > ASSA, DI OP Assessment*.
