March 21, 2023 | 113th Edition

## Announcements

### Search for Purchase Orders by Project

You now have the ability to search for Purchase Orders by project, and optionally task number, in the Oracle Purchase Orders module. For instructions on how to do so, please [review our new KBA](#).

### Coming Soon - Effort Reporting in ECERT

We are in the final stages of testing ECERT (Electronic Certification of Effort and Reporting Tool). Once complete we will notify the campus of the release of effort report forms in ECERT. Specific dates will be finalized soon and announced. We will be certifying FY21 and FY22 and will have a due date of 4 months from the time of release. We will be offering training sessions to support those who need a refresher or who have not gone through the process in the past.

### Updated Oracle ADF Desktop Integration Excel Add-On Now Available

Do you use Excel to upload transactions in Oracle? If so, a new version of the integration add-in is now available for you to download:

1. On any OFC page, click on the **Navigator** button on top left.
2. In **Tools**, select **Download Desktop Integration Installer** and click on **Save File**.
3. Go to your **Downloads** folder and run the file by double clicking on **adfdi-excel-addin-installer-current-user**, follow the instructions in the prompt.
4. Open a new **Excel** spreadsheet, **File > Options > Add-ins** and confirm **ADF Desktop Integration > Oracle ADF Desktop Integration Add-in for Excel** is listed.
5. If the add-on is not listed, restart your computer.

## Oracle Project Portfolio Management (PPM) and Contract Issues Resolved

- **Multi-Cost Transfer Count:** When selecting multiple costs to transfer, the row count previously only reflected the selected rows on the page, as opposed to the total count. This is now resolved, and the count reflects the total number of transactions being transferred.
- **Contract Line Number Validation:** To prevent the use of alpha or special characters, the Contract Line Number field on the Contract Lines tab will no longer be editable for General Contracts. This ensures that Generate Invoices will run smoothly and without error.

Description

Start Date 01/03/2023

**Oracle PPM Cost Transaction Processing Status Partially Fixed:** When users navigate to Projects and Awards > Costs to view the initial Transaction Processing Status window, the Exceptions tab under the Adjustments header was not initially loading. The only way to load Exceptions was to switch to a different header tab (Borrowed and Lent or Burdening) and switch back to Adjustments to “force” a load. While Oracle resolved this issue with the Exceptions tab, the **Pending tab is now experiencing the same behavior**. We are working with Oracle to resolve this issue.

### PADUA 2.3 Release Postponed to 3/24/23

The Project and Award Data Update Application (PADUA) has new features that will be released this month. Release 2.3 will include updates to Award Personnel and request updates to sponsored projects (with final approval through SPF). It will also allow for the ability to update General Project start dates and update the project status (closed/open). Recharge projects and tasks requests will now have workflow to CP&A. This update was scheduled for March 17, but has been postponed to be released **March 24, 2023**.

### Oracle Project Cost Adjustment Workflow Notification Updates Are Delayed

The Oracle Cost Adjustment Workflow Notifications updates have been delayed. The updates will provide more detailed information to facilitate approving pending transactions via email. Updates and more information will be shared in the future.

### Is Southwest’s Wanna Get Away+ Fare an Upgrade?

Southwest’s [new fare tiers](#) include Wanna Get Away+ (WGA+), which includes benefits such as:

- Transferable flight credits, which will allow Southwest Rapid Rewards Members to transfer their airline credits to another Rapid Rewards Member. For bookings made through SWABIZ (Southwest’s Business channel), transfers can only be made between UC campus travelers.
- Same-day confirmed changes and same-day standby, which will give travelers the flexibility to change their flight on the same day as their original flight, if there are seats available, without additional airline charges.

For UC travelers, the advantages of WGA+ is in the transferability of the credits and the flexibility for changes (especially given anticipated schedule changes in the coming months).

Is this fare class considered an upgrade? While G28 Travel Policy asks travelers to book lowest logical fare, the regular “Wanna Get Away” fare has become more like a basic or saver ticket that has very few protections for the traveler. Wanna Get Away+ is a logical choice for our travelers and is not considered an upgrade.

### Requisition Approval Email Error

Emails sent to the approver when a requisition requires approval are not displaying all relevant information. Instead, these notifications are often simply displaying errors. You can still view all relevant requisition information by logging into Oracle and accessing the approval from your worklist. To access the approval:

1. Login to [ofc.ucsd.edu](https://ofc.ucsd.edu).
2. Click the bell icon at the top right.
3. Search for the requisition.
4. Click on the requisition.

We apologize for the inconvenience, and Oracle is actively working to resolve the issue.
