The ISE Newsletter provides up-to-date information on conferences, funding opportunities, and new science-based information and innovation to address industry constraints. This program is coordinated by MDPI under the patronage of the University of Basel, the University of Bern, and the Swiss National Science Foundation. The following program areas: Advanced Scientific Computing Research, Basic Energy Sciences, Information and Communication Technology, Financial Assistance Program.

Dear Colleague Letter: Critical Aspects of the COVID-19 (COVID-19) epidemics and to increase research and response capacity. It’s part of an existing program or the Cyberinfrastructure for Sustained Scientific Innovation (CSSI) program. The National Institute of Allergy and Infectious Diseases (NIAID) and National Institute of General Medical Sciences are collaborating on a Dear Colleague Letter. In light of the emergence and spread of the coronavirus disease 2019 (COVID-19) in the United States, research is needed to address this global challenge.

For immediate release: DCL: Pre-Competitive Modeling of COVID-19

The National Institute of Allergy and Infectious Diseases (NIAID) and the National Institute of General Medical Sciences released a Dear Colleague Letter (DCL) that seeks applications for a Pre-Competitive Modeling of COVID-19. This Dear Colleague Letter (DCL) is accepting proposals to conduct modeling Predominantly of COVID-19 for pre-clinical testing of vaccines and therapeutics against 2019-nCoV.

Cyberinfrastructure to Further Research on the Transcirptome Project

The George Mason University Department of Computer Science and Technology is supporting the Transcirptome Project. The George Mason University Rural Opioid Telehealth Project (ROTP) is also supported. The National Science Foundation is funding the Telehealth Project (ROTP). The George Mason University Rural Opioid Telehealth Project (ROTP) is also supported. The National Science Foundation is funding the Telehealth Project (ROTP). The George Mason University Rural Opioid Telehealth Project (ROTP) is also supported. The National Science Foundation is funding the Telehealth Project (ROTP). The George Mason University Rural Opioid Telehealth Project (ROTP) is also supported.

Funding source:
- National Science Foundation: $50,000
- US Department of Agriculture: $500,000
- George Mason University Foundation and The Heinz Endowments: $50,000
- Alexandria Renewal Enterprises: $11,697
- First Judicial District of the Common Pleas: $82,185
- Inova Healthcare: $144,050
- Rebecca Sutter, College of Health and Human Services: $30,000
- Cynthia Lum, College Humanities and Social Sciences: $12,500
- Pei Dong, Volgenau School of Engineering: $25,000
- Todd Zywicki, Antonin Scalia Law School: $10,000
- Contact: [specific contact information]

Amount: $10,000,000
Submission: grants.gov
Deadline: Rolling basis
