Questions? Please contact Ann Gallagher at ann_gallagher@nps.gov

Stewardship and Science Directorate.

Register, you will receive information about how to access the Teams platform for the event.

2022 Spotlight include:

- Byrnes will offer insights on leadership, building imperatives.
- Developing innovative ideas to achieving broad impact, including key legal issues and business imperatives.
- Engaging conversations with leading thinkers:

  - How are we learning? Creating a dynamic applied approach to methodologies uplifting community-based learning.
  - Native America holds histories encompassing millions of people, spanning thousands of years, to link public understandings with indigenous voiced teachings. This work also minds the atmosphere to enhance knowledge, build collaborations, and drive research development. So, the Panel’s recommendations will promote conservation as well as sustainable development of community
  - Artifacts of War, Sites of Resistance: The Vietnam Veterans Memorial Collection
  - Topo-bathymetric lidar acquisition for the Potomac River corridor
  - Grassland bird management in National Battlefield Parks
  - 15th Annual STAR-TIDES Capabilities Demo

**Event Correction**

April 18 - 20, 2022 related to Mason’s Climate Action Plan. There will not be an event this week. We apologize for any confusion or inconvenience. We will continue to keep you posted on the 20, 2022 Congressional Fellowship Opportunity project. More information to come soon. Stay tuned.

The Spring 2022 Resilience Academy is a free opportunity for students to learn about sustainability and resilience challenges.

**Interactive Workshop Series: Planning for a Productive Summer**

- The Mason Vision Series is a tool for you to find others with complementing expertise and for networking.
- The Mason Resilience Academy is a free opportunity for students to learn about sustainability and resilience challenges.
