Questions? Please contact Ann Gallagher at learningalliance.gmu.edu.

Leveraging experiences from his decades-long career in the private and public sectors working on initiatives local and global. Please register, you will receive information about how to access the Teams platform for the event with 5 minutes for audience questions. Some of the diverse topics you will hear about at the event with 5 minutes for audience questions.

This year's Spotlight features 16 speakers and up to 30 posters highlighting science and research at Mason.

Byrnes

From Great Ideas to Global Impact: A Talk with Andrew Byrnes

Hear about the latest findings surrounding hot topics in science and medicine that affect our health and the world around us. This is your chance to hear from world-renowned leaders and researchers, as well as up-and-coming scientists who are making a difference today.

Registration

Democratizing NOVA Summit

The Mason Vision Series will be live streamed through Office of University Events, the George News, April 14, 2022.

The Institute for a Sustainable Earth (ISE) at George Mason University is launching a 12-month initiative, the ISE Newsletter, with the goal of connecting members of the Mason community and the broader community to current trends and topics in the field of sustainability and resilience.

Students can use code: RA2022S3SG for the first session.

The Spring 2022 Resilience Academy is a free opportunity for students to learn about the science of resilience and sustainability, and to gain invaluable and practical public policy experience. This program is designed to provide students with an understanding of the complex and interconnected challenges facing our world today, and to equip them with the skills and knowledge to help address these challenges.

Monday, April 18, 2022, 1:30pm - 3:00pm ET

The Mason Vision Series will be live streamed through Office of University Events, the George News, April 14, 2022.

Across Generations
