Hope your 2019 is off to a fantastic start!

As I basked in the Clemson spirit in Santa Clara witnessing our Clemson Tigers win the national championship, I heard Coach Swinney say in his interview, “We were not chasing the national championship, we were focused on being the best we could be every day.” Chasing excellence yielded perfection for Clemson Football this year.

As we relentlessly pursue excellence in science, we may not have national championships, but we will have a tremendous positive impact on society through our great scientific challenges and the remarkable work that we do. Thank you for being such a big part of the Clemson family.

As we look back at 2018 – What a Year! – I am reminded of that image of Coach Swinney and our student athletes locked arm-in-arm as they took the field. Join us academically, arm-in-arm, as we collectively focus on advancing SCIENCE.

Go Tigers!

Perfect in every way

Clemson football fans now have the chance to enter for a chance to win a one-of-a-kind football signed by the entire Tigers team.

As today’s student leaders, Clemson’s ODK members are forging the future in a variety of ways.

As yesterday’s student leaders, Clemson researchers work with citizen-scientists to better understand diversity of rattlesnake venom.

The discovery that Mojave Rattlesnakes have multiple venom types may be an important step toward helping researchers better understand biodiversity in these organisms. The research was published in Scientific Reports.
