

Happy Holidays from Impact Dakota!

Upcoming EVENTS

Lean Enterprise High Performance Manufacturing Training Scheduled

Impact Dakota is in the process of recruiting for a new rounds of Lean Enterprise High Performance Manufacturing (LEHPM) training which starts on **January 17th in Fargo** and **February 28th in Dickinson**. Additional sessions scheduled - check out our [events page](#) for details.

The Impact Dakota LEHPM training helps businesses achieve higher profitability by building internal capability and capacity to improve QUALITY, COST, and DELIVERY. This training is based on the Lean Enterprise Certification (LECP) body of knowledge and uses standards developed and judged by the Society of Manufacturing Engineers (SME) in partnership with Association for Manufacturing Excellence (AME) and the Shingo Institute.

[Click here for LEHPM Information and Registration](#)

Additional training opportunities being scheduled:

Please watch our calendar of events for additional training to be announced soon. If you have a need for training that isn't on the list below, please reach out to [Gordon](#). We are here to help!

- Basics of HACCP - late March/early April
- Quality Management Systems - Internal Auditor Training

- Cybersecurity
- Lean 101
- Lean 101 + Simulation

What's the Big Deal about a NAICS Code?

Why should you get a manufacturing NAICS Code?

A NAICS (North American Industry Classification System) code is assigned by the business owner to describe the primary revenue-generating activity of the company. They are used by local, state, and federal entities for statistical purposes as well as for non-statistical reasons that can benefit you. A business that has multiple activities or lines of business can designate multiple NAICS codes. For example, a company may identify a manufacturing, retail sales, and service industry NAICS codes (three separate) if they work and support/provide goods/services in multiple different ways.

MANUFACTURING

in Lehman's Terms

As we lead up to the legislative session, there has been a lot going on at the North Dakota Department of Commerce. This includes proposals for many new and expanded programs to help alleviate our workforce challenges and to grow our primary sector businesses in North Dakota. For this month, however, I have invited Hannah Lange, the North Dakota Development Fund Venture Financing Manager, to provide some specifics regarding the Angel Match Program that was recently rolled out at the North Dakota Department of Commerce.

Raising Capital in North Dakota

New Angel Match Program aims to AMP-lify early-state investments in North Dakota startups

Over the last few years, North Dakota has increased its investment in businesses within the state. Programs like the Innovation Technology Loan Fund (LIFT), Bank of North Dakota's PACE program, and House Bill 1425, which committed a portion of Legacy Fund earnings to be invested within the state have helped develop a capital landscape within the state, giving companies access to the capital they need to grow their businesses right here in North Dakota.

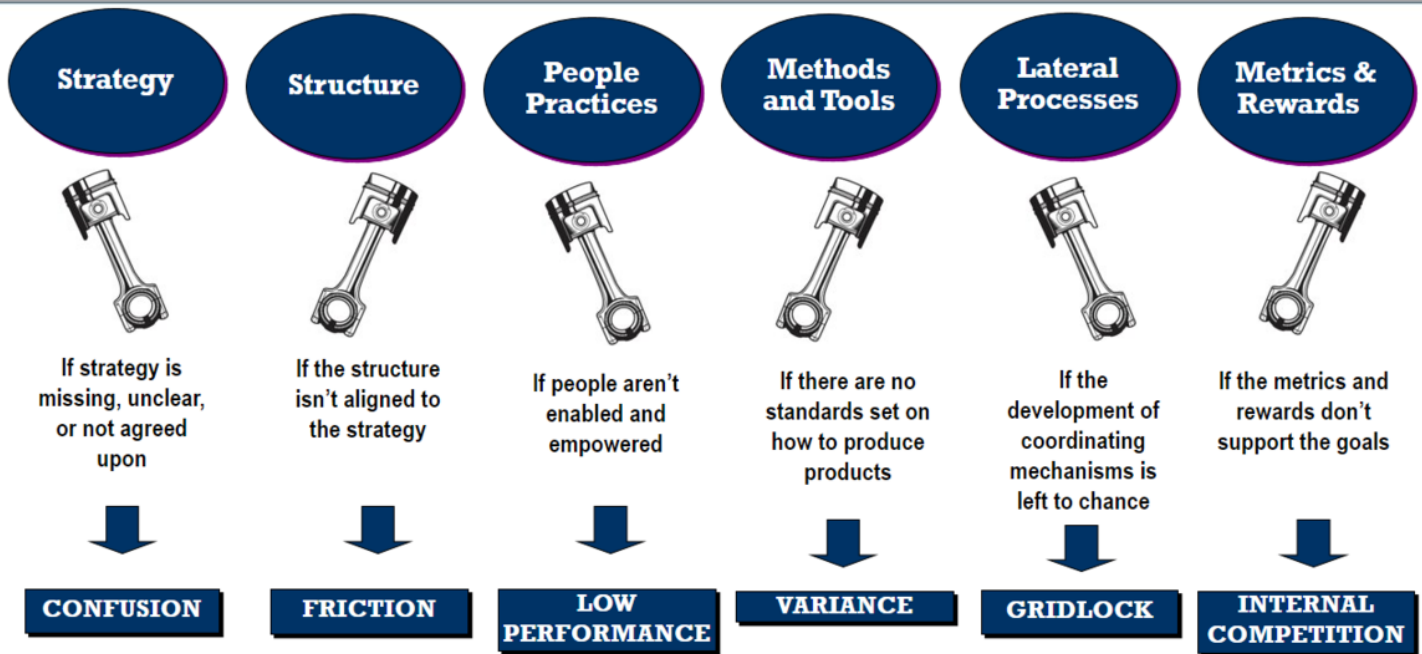

The North Dakota Development Fund (NDDF) developed the Angel Match Program (AMP) as a solution to bridge this gap in the market and prepare companies for later-stage financing tools. The AMP, funded through the federal [State Small Business Credit Initiative](#) (SSBCI), matches equity investments into primary sector businesses headquartered in North Dakota up to \$250,000 per company.

The Straight6 Model

Our **NO-COST Business Excellence Optimization Assessment** (\$4,000-\$6,000 value) helps check when your "engine", aka business, needs to be tuned; and diagnose any issues and opportunities against the Straight6 cylinders: Strategy, Structure, People Practices, Lateral Processes, Methods & Tools, and Metrics & Rewards.

Please contact [Gordon](#) if you have any questions, or if you would like to take action on the Business Excellence Optimization offering. [Click here](#) to schedule your no-cost assessment.

PEOPLE + PROCESSES in alignment with Organizational Strategy = RESULTS
