The Managerial Reporting Account Hierarchy is Getting a Refresh!

A campuswide workgroup reviewed the existing Managerial Reporting Account Hierarchy to ensure that account numbers were falling under the appropriate hierarchy to the business transaction at hand (i.e., label hierarchies). These account number assignments that were identified over the full 2021 was an initiative to provide greater alignment of common business needs across the organization.

Generally, net position total should not change from one version of the hierarchy to the next version. The primary change is the inclusion of capital equipment accounts, so that reports no longer need to point to both the standard and managerial hierarchies for the same account number.
