Clinical Supervision for Investors?

Clinical supervision is a booming business – according to a [new report](#) by Worldwide Market Reports, “Professional Supervision Service Market: Industry Trends, Share, Size, Growth, Opportunity and Forecast 2023-2030.” The aim of the report is to make sure the “client has a complete knowledge of the market and business from past, present, and prospective aspects enabling them to allocate resources and investing money wisely.” See a similar report from [Research Cognizance](#).

We invite you to share any experiences you have had with companies marketing clinical supervision services – as well as your thoughts and opinions. We would love to share those with CSRC members in future newsletters. (email DiAnne at borders@uncg.edu)

Seeking new volunteer member(s) for the Clinical Supervision Connection Podcast Team

Hello everyone!

The CSC Podcast is looking for new volunteer member(s) to join our podcast team. The Clinical Supervision Connection Podcast is designed to engage the clinical supervision community in cross-disciplinary dialogues and collaboration. By hosting voices across geographical and disciplinary contexts, this reciprocal community of researchers and practitioners will have the opportunity to learn from one another and translate knowledge to shared understandings.

We welcome new ideas and perspectives. Feel free to give some of our previous episodes a listen! <https://csrcollaborative.org/podcast/>

Expectations:

New volunteer member(s) would be expected to meet once every two weeks via Zoom, be active in the clinical supervision community, and attend interviews with podcast guests.

People who are bilingual/multilingual, have experience with audio editing, grant application experience, and in fields outside of psychology (nursing, social care, etc.) are encouraged to reach out. Students are also welcome to reach out.

If you are interested in joining our fun international team, please tell us a little about yourself through email at CSCConnectionPodcast@gmail.com

We are looking forward to meeting you!

The CSC Podcast Team

Share your recent clinical supervision research publications!

We love featuring recent clinical supervision research studies authored by CSRC members in the newsletter!

CSRC members are invited to share their recent publications of empirical work for upcoming newsletters!

Just email a brief blurb (no more than 150 words) of the study, along with a copy of the article, to DiAnne at borders@uncg.edu. *In the blurb, please summarize the **goal and main findings** of the study and state **clear and specific implications for supervision researchers, practitioners, and/or educators**.* Finally, include the article DOI and indicate whether the full article is available to CSRC members through ResearchGate, open access, or another source.

Note. By submitting your article to share in the newsletters, you are also agreeing for your write-up to be shared on our CSRC social media accounts. English summaries of non-English research publications are welcome!

In Case You Missed It...

December 2024 Webinar

Thank you to Dr. Alex Pieterse for last month's impactful webinar on anti-racism in clinical supervision. CSRC members not able to attend the presentation can view a recording of the webinar on the [CSRC website!](#)

Database of Clinical Supervision Measures

Looking for a brief, practical measure of evidence-based supervision interventions? Check out the latest measure - the Evidence-Based Clinical Supervision Strategies scale (EBCSS; Choy-Brown et al., 2023) - added to the database of clinical supervision instruments on the CSRC website. (use the Learn link, then Resources)

Blogs
