To reach the public about the importance of buying local and growing food, we created an extension of our agricultural literacy curriculum that included soil health, pest management, and precision agriculture. We had nearly six hundred dollars in donations, which allowed us to offer scholarships for high school students interested in agriculture.

The Arizona 4-H Youth Foundation is made possible by the partnership with Showman’s LLC with support from generous donors. The Arizona 4-H Livestock Show and Expo is made possible by their support.

Coming soon to an Extension office near you….. Well, specifically, Maricopa County: we are happy to announce that many trials for our Programs are about to ramp up and get underway, stay tuned for more updates from the Field and Extension Office.

The Arizona 4-H Livestock Show and Expo is made possible by the partnership with Showman’s LLC with support from generous donors to the Arizona 4-H Youth Foundation.

The Arizona 4-H program will be holding their inaugural Arizona 4-H Livestock Show and Expo, March 4-6, 2022, at the Arizona State Fairgrounds. Youth from across the state will have a chance to grow, learn, practice, and showcase their turf management operations. Research results are also published in scientific journals to share with other professionals and researchers.
