Optimize County Cooperative Extension

Field Crops: IFAS and Urban Agriculture Programs

In 2022, Maricopa County Cooperative Extension is excited to offer this unique professional development opportunity to K-12 teachers in the field of agriculture. The workshops will be designed to provide teachers with the knowledge and tools to incorporate agriculture into their classrooms, with a focus on citrus, dates, and entomology. These workshops will be held at various locations throughout Maricopa County, providing teachers with the opportunity to learn from experts in the field and gain hands-on experience. Registration for these events is $25 per day, and participants will receive professional development hours.

Anyone interested in exploring the field of agriculture education in Maricopa County is encouraged to learn more and apply. To register for these events, visit www.centrl.org/events. These workshops are only the tip of the "iceberg," though.
