Welcome October!

We have officially entered the Fall season. Last month was directed toward checking in and assessing if you're living a balanced life and identifying where to start. This month, as our nights get colder and darker, it becomes important to acknowledge where your own darkness lies.

What part of your life is "FALLING" short from where you want to be?

What is it you need assistance with?

Where do you feel stuck? What is it that you want to improve?

Whether you have a new injury, chronic condition, or want to improve fitness and performance, the Medicine Wheel initiates healing by looking within and acknowledging not only your Physical Body but also your Energetic Body. Our Energy Body, often referred to as "Life Force", "Soul" or "Self", is the fuel inside each and everyone of us that gives us life. It's like the gasoline of a car. Your unique Energy is the fuel and your Physical body is the vehicle, and in order to drive or have movement, both are required to work in unison.

Your Energetic Body's anatomy is defined by the Chakra System. Long before modern technology and science, ancient cultures knew that all living things carried a "Life Force" within them. "Chakra" is a Sanskrit word that means "Wheel". So just as we care for our Physical body with the Medicine Wheel, we care for our Energy body with the Chakra System through the practice of Yoga and specialized Energy Therapies offered by our providers:

BEMER
GROUP

Bemer® is a 20 yr-old technology from Germany that feeds information to the human body to optimize cellular blood flow of nutrients and oxygen to all tissues and organs.

Bemer® uses Pulsed Electro Magnetic Field (PEMF) to deliver its patented bio-rhythmic waveform as the carrier of information to help increase blood flow.

BioMat

By producing deep-penetrating, far infrared rays along with negative ions that activate the body at the molecular level, the BioMat is capable of administering deep soothing stimulation.

The BioMat's medical and therapeutic properties are based on the same infrared technology that NASA identified as the safest, most beneficial type of light wave.
