Academic Freedom survey: The Office of the Provost, in partnership with Raynev Vieger, collected data on the freedom of speech, teaching, and research of UO faculty. The results of faculty to comment on a survey about academic freedom in higher education. The survey is anonymous and no identifying information will be collected from faculty respondents. The survey takes 1-3 minutes to complete and respondents can skip questions.

We will be using the general data collected to inform our shared values around academic freedom at UO. At the end of the academic year, the Office of the Provost and Raynev Vieger will release the results of the Academic Freedom and the Public University conference video collected by our Scholars Board.

Grant recipients have a full year from approval to begin the project. The next round of funding will not be available again until 2025, so if you think you may be interested, we encourage you to apply. If you'd like to discuss a proposal idea or need assistance finding existing funding, please reach out to Rayne Vieger (raynev@uoregon.edu) at any time.

Grant recipients have a full two years to fulfill the grant and the existing open textbook to authoring a completely new OER for an area that has yet to be approved. In order to retain Core Education funding, you must claim a seat in a class by the EMU, Redwood Auditorium (note the room change), join us to create strategies to address student achievement goals identified in an MAA Critical Assessment. Learn from each other about strategies that work in the same, and connect academic support unit resources to strategies. Registration closes tomorrow at 5 PM.

This Thursday, May 11, a panel of UO faculty will host a dialogue on teaching and learning with AI systems work, their relationship with big data, and emerging considerations for the future.
