focus groups, proposing an analysis plan, and developing the corresponding budget to complete this edge epidemiologic techniques using three large data sets to examine preeclampsia and preterm national Melanoma Registry.

of a national federation whereby other states will create similar registries that will provide data to the opportunity to learn and look forward to continuing working with the Peer Navigators. We are immensely appreciative and humbled by the September 2019. The Peer Navigators were excited to showcase their wonderful work and speak to Health Disparities in Racial/Ethnic Minorities and the Medically Underserved that took place in organizations. The OCE worked with the Peer Navigators to develop a conference poster that was resources, reaching over 700 women in Alameda County. These community events ranged from a events surrounding breast cancer awareness such as mammogram screenings and community research. To date, the Peer Navigators have successfully carried out 10 community engagement Navigator created their own plan for engaging their local community in breast cancer awareness and and research, Geeta is captain of Basmati Raas, Stanford's nationally competitive Indian dance Mapping of Mental Health Resources in San Mateo County: The Quest For A More Patient & Progress in a Precision Medicine Intervention

Opportunities to Prevent Congenital Syphilis in Santa Clara County
