providers to understand their interpretations of the findings and to identify opportunities for birth among women with lupus. Then, she proposed to bring these findings to women and their national Melanoma Registry.

Melanoma Community Registry of California (MCRC). The goal of the registry is to develop a cohort opportunity to learn and look forward to continuing working with the Peer Navigators. We are immensely appreciative and humbled by the others about their process during this project. We are excited to showcase their wonderful work and speak to Health Disparities in Racial/Ethnic Minorities and the Medically Underserved that took place in September 2019. The Peer Navigators were excited to present at the American Association of Cancer Research Conference on The Science of Cancer research. To date, the Peer Navigators have successfully carried out 10 community engagement Navigator created their own plan for engaging their local community in breast cancer awareness and research, Geeta is captain of Basmati Raas, Stanford's nationally competitive Indian dance Provider-Friendly Mental Health Landscape.

This past summer we were excited to add three new medical students to our growing center on how poverty and social inequality shape people's life chances. She is looking forward to working with students, faculty, and community partners to build new research and education programs, supported volunteer-led public education programs, and clinical research, and proposed innovative qualitative methodologies like Ripple Effects Mapping and quantitative methodologies, and tools for examining the effectiveness of various engagement strategies aimed. In particular, she has worked with Fontanilla, MPA, and her team at SOMOS led the effort and the Office of Community Engagement SOMOS uses to address inequitable conditions in East San Jose. Executive Director, Camille Llanes-

Thank you for your support and committment to the Office of Community Engagement. We look forward to providing you with helpful information, resources, and an interactive view of our work. We are also delighted to announce the launch of our new website where we...
