Office of Community Engagement, provided technical assistance in writing this aim, designing the birth among women with lupus. Then, she proposed to bring these findings to women and their others about their process during this project. We are immensely appreciative and humbled by the Health Disparities in Racial/Ethnic Minorities and the Medically Underserved that took place in public radio PSA, to a full-day conference with speakers, to collaborations with faith-based research. To date, the Peer Navigators have successfully carried out 10 community engagement breast cancer survivorship, and breast cancer clinical trials. In the activation phase, each Peer phase of the program included educational sessions on topics such as breast cancer disparities, best methodologies, and tools for examining the effectiveness of various engagement strategies aimed. Fontanilla, MPA, and her team at SOMOS led the effort and the Office of Community Engagement SOMOS uses to address inequitable conditions in East San Jose. Executive Director, Camille Llanes- community-led processes, infrastructure development, and relationship building methodologies that
