A group of eight talented master’s students and recent master’s graduates from Portuguese Institutions has been selected to develop their research work in the Information and Communication Technologies (ICT) field at Carnegie Mellon University (CMU). Research projects are invited to showcase their research at the Summit’s poster sessions. The researchers will visit CMU between October and December 2022, financed under FCT and CMU. The date for the CMU Portugal Summit 2022, is fast approaching. On November 9-16, we will bring experts from Portuguese Universities, Carnegie Mellon University, and Companies to present ICT research progress in areas as diverse as Health, Forests, Security, Artificial Intelligence, Language Technologies, etc. The CMU Portugal Summit 2022, is a unique event where teams from Portugal can get an insight into new trends and emerging opportunities in ICT. The CMU Portugal Summit 2022 is happening by sending an email to cmuportugal.org. Join the conversation to our email list.
