

Bennett—In Service to the Community, In Service to You

Included in the Alumni plan for the redesign of Bennett was the hope that the school could once again be a hub for community involvement. We have long been called the Bennett Beacon and that is just what our school should be.

We are happy to announce that evening and Saturday programs are now being offered. Below is an announcement of upcoming events. Beyond those currently enrolled at Bennett, their families and the immediate community, alumni are cordially invited to participate in any activity.

Welcome back!
