Jean's Corner

For the last 13 years, our team has included unpaid interns, who we often hired after their internship. However, we have found that many talented students cannot take advantage of our rewarding opportunities without being paid. To be more equitable and to expand our pool of applicants, we have decided that going forward we must pay all our interns. We hope you agree. This is one of the reasons we are encouraging donations: We hope that you want to enable students to gain valuable

professional experience while working with a committed, talented group. We also are planning an ambitious series of collaborative events to celebrate the 100th anniversary of the first planetarium projector. If you have already supporting us financially, thank you. If you have not done so already, please consider [supporting us](#). Thank you and I hope we can meet under the stars very soon!

Asian Celebrations: Two dates left!

Experience celestial celebrations across Asia with different guest speakers who will talk about their country, culture, and connections to the night sky.

Friday, April 9 at 7:00 p.m.: [Vinaya Valsan, India](#)

Wednesday, April 14 at 7:00 p.m.: [Dr. Aragorn Quinn, Japan](#)

Spring fundraising: Help us reach our goal of \$7,500!

Your contributions go toward:

- Student scholarships
- Stipends for guest speakers from underrepresented audiences

- Saving toward a new hybrid planetarium projector
- Special events in 2023, the 100th anniversary of planetariums!

No gift is too small! Thank you for your continuing support!
