November 2021

Faculty Spotlight: Kate M. Chaffin

Kate M. Chaffin, B Soc W, MSSW, LSW, is Director of the College of Social Work's MSSW Program and Professor of Practice. Kate completed her MSSW degree here at UT in 2004, and then worked as a forensic social worker in the court system until 2008. In that year the College of Social Work hired Kate to launch their new online MSSW Program, which was one of only two online social work programs in the nation. Kate completed her DSW degree here in 2015, and now serves as a faculty member in the College of Social Work.

Kate also initiated her simulation, a practice-driven degree in a Blended format (BSW) program that focuses on teaching and learning. All social workers are case managers, and Kate identifies case managers as the best model for simulations.

Kate was instrumental in initiating the annual Diagnostic Skills Competition. This competition has been well received, and seen the level, pride, and scope for growth, and is geared to developing a deeper breadth of teaching roles in social work.
