Commenting Hispanic Heritage

By Andrea Weeks

This week marks Hispanic Heritage Month, an important time to celebrate the contributions and achievements of Hispanic Americans. As a U.S. citizen and a member of the Fairfax County Board of Supervisors, and Mason students.

Message from the Dean

by Dean Fernando R. Miralles-Wilhelm

Dear Mason Community,

Today I am pleased to announce that Associate Professor Padhu Seshaiyer will serve as the Faculty Fellow for the 2020-21 academic year. The College of Science announced the 2020-21 annual Fenwick Fellow award for 2020-21. The mission of the Faculty Fellows program is to promote excellence in teaching and research and to provide leadership for the college.

I am proud of my Hispanic roots and have realized how they have given me a particular perspective in connecting with underrepresented communities and using that background to contribute to the diversity and inclusiveness of the Mason community. I will continue to contribute to the strategic development of ISE. Applications are due by October 16, 2020.

Happening at Mason

ERF POS advocates Karl Johnson, Distinguished Professor Emeritus of Environmental Science and Policy, recently announced that Mason University for keeping its coronavirus numbers low during a visit to the Fairfax campus on Tuesday, September 22, 2020.

Virginia Governor Ralph Northam praised George Mason University for keeping its coronavirus numbers low during a visit to the Fairfax campus on Tuesday, September 22, 2020. In a press briefing, Northam said Mason’s efforts have served as a model for safe reopening plans for other colleges and universities.

Mason is among the universities that have set aggressive goals for reducing the spread of COVID-19 on campus. Mason’s dashboard shows that the university has been successful in keeping its numbers low, with no active cases reported in the past week.

Northam said Mason’s efforts have served as a model for other colleges and universities, and that the university should be proud of its accomplishments.

"Mason is doing a fantastic job," Northam said. "They have set aggressive goals for reducing the spread of COVID-19 on campus, and they have been successful in keeping their numbers low."
