

KEEPING UP with the Kantarians

December Newsletter

Director's Corner

Appropriately, I want to begin this month's blog by giving thanks to the dedicated band of member and non-member participant volunteers who take time, that they often don't have, to contribute their expertise and experience to...

Spotlight on Zygma

Securing Your Business' Information

Kantara member Zygma's services are based on three decades of experience in the Information Security Management and 15 years in the ID Management domains.

As the principal architect of both tScheme (in the UK) and Kantara's Identity Assurance Framework, ongoing and very active involvement in both the development of the IAF per se, and the provision of assessment and assessment management services under its Classes of Approval has become a way of life.

Read the Spotlight below to learn more about Zygma.

SAML 2.0 Deployment Profile out for Public Comment and IPR Review

Public Comment and IPR Review is a mechanism that gives the Kantara Initiative members and community an opportunity to provide input and feedback on the Working Groups specifications.

We encourage all newsletter readers whose organizations still deploy SAML, to review and feed back comments.

ISSE Recap

We've said it before but we'll say it again. [ISSE](#) in Brussels is a great conference - insightful, engaging, not too big yet not too small, and thoughtfully orchestrated to allow time for quality audience participation and follow up with speakers.

Our liaison partners [EEMA](#) generously gives Kantara its own session track allowing us to hand podium time to our members as well as staff. This year was no exception. [Nixu Cyber Security's](#) Martin Sandren gave us an interesting insight into the ISO6 professional certification attribute exchange service in the Nordics, showing how the attributes of the lift-weight of the crane can be connected to the professional certification attributes of the crane driver. Such 'postcards from the field' are a refreshing change from the usual theory espousal at conferences! Also its use of Kantara's Consent Receipts fitted perfectly with [Ubisecure's Oscar Santolalla](#) new Consent Receipt video. Legendary [Dave Birch](#) initiated great discussion on extending Kantara's Consent Receipt to IoT environments, and capped off with staff Ruth Puente's presentation on the 2nd call for NGI_Trust grant funding, resulting in submitted proposals.

One World Identity 2019 Identity Landscape

Each year, [One World Identity](#) designs an Identity Landscape, providing a comprehensive and holistic view of leaders in the identity space. Kantara was proud to be listed in the Standards organizations and protocols category alongside NIST, OpenID Foundation and others. Together with us, we're proud to see so many Kantara members and liaisons shaping next-generation digital identity!

Congratulations to our Board Members:

[digi.me](#), [Experian](#), [ForgeRock](#), and [Internet Society](#)

North American Corporate Members: [1Kosmos](#), [BlockID](#), [Athena Health](#), [Easy Dynamics](#), [ID.me](#), and [Inflection](#)

European Members: [iWelcome](#), [Meeco](#), and [Ubisecure](#)

Liasion organizations: [EEMA](#), [FIDO Alliance](#), and [IDPro](#)
