Billing Office Hours
Join us this Friday during our Billing Office Hours. We would be happy to process an incorrect credit memo through to Accounts Receivable and then revise the billing event. This process is documented and includes verifying that the amount to be credited is zeroed out or reduced by the amount to be credited. The system will then run a scheduled process to ensure the correct billing information is updated. We also use WalkMe to add additional validation to your transactions. The WalkMe Browser Extension adds various tips, walkthroughs, and resources to your Oracle tools. We also recommend checking out the WalkMe: In-System Help and Resources.

Tip for PPM Credit Memos
If you are receiving incorrect credit memos, it is important to fix the error on the billing event through to Accounts Receivable. This process is documented and includes verifying that the amount to be credited is zeroed out or reduced by the amount to be credited. The system will then run a scheduled process to ensure the correct billing information is updated.

Dear PPM Credit Memo Receipient,
Would you be interested in receiving more information about PPM Credit Memos? We would be happy to provide you with tips and resources to help you manage your PPM Credit Memos more effectively. Let us know if you are interested in receiving these resources.
