- Kantara’s Consent Receipt Takes Top 100 Influencers in Identity’s (OWI) 2018 list of the Top Influencers in Identity
- Colin Wallis named one of the many benefits of Kantara membership!

Director’s Corner

Chris is the Kantara Initiative Washington DC Director. Chris is responsible to develop and support Initiative Impact within the US Federal community. Chris has more than 20 years of professional experience, spending 15 years in public and private sector consulting. He has developed and implemented business strategies to improve awareness and broaden Kantara Initiative’s impact within the US Federal Community.

Ruth Puente is the Program Manager leading its Identity and Privacy Assurance Trust Framework activities. Ruth has been involved in the Internet Technical Community (ICANN, RIRs and ccTLDs) for more than 10 years. She has contracted for YWAM as well as freelance projects and emerging identity & privacy assurance Trust Framework Operations Program and its Trust Privacy Incubator Research & Development program.

Armin is a Web/Application Developer working with a team on creating a Mobile Digital Application that simplifies the international clearance process and it’s international passport information, enabling a seamless clearance process for pilots. This digital application provides encryption and data management services for pilots.

Colin is the Kantara Initiative Executive Director. Colin co-founded the Estonian Non-profit trade association to be incorporated through Estonia’s eResidency program. He has held a passion for extreme sports and loves to travel and experience new cultures, particularly the Atlantic Ocean, surfing, mountain biking, and skiing. Her hobbies include spending time at the beach, reading, investing time in her community and volunteering.

Meet the Team!

Chris has more than 20 years of professional experience, spending 15 years in public and private sector consulting. He has developed and implemented business strategies to improve awareness and broaden Kantara Initiative’s impact within the US Federal Community.

Ruth has been involved in the Internet Technical Community (ICANN, RIRs and ccTLDs) for more than 10 years. She has contracted for YWAM as well as freelance projects and emerging identity & privacy assurance Trust Framework Operations Program and its Trust Privacy Incubator Research & Development program.

Armin has had a passion for everything technology since he was young. He has had a passion for extreme sports and loves to travel and experience new cultures, particularly the Atlantic Ocean, surfing, mountain biking, and skiing. Her hobbies include spending time at the beach, reading, investing time in her community and volunteering.

Colin was named one of the many benefits of Kantara membership!

Thank you to our organization members, affiliates and adopters, as well as our individual contributors Wesley Dunnington and Thomas Bohan for rejoining with us if you haven’t renewed, do so now and continue the many benefits of membership!

For more information on our membership, board meeting, and conference dates, please visit the Kantara Initiative calendar.
