**Oracle Financials Cloud**

**Oracle Cost Transfer Multi-Select Launching Soon!**

Oracle has delivered the ability for departments to initiate PPM cost transfers for more than one transaction at a time! The ability to multi-select will be available on May 17. Along with this release, all transfers will be final approved in the department.

**New Set Up Process for Flow Through Awards**

In order to mitigate payroll expenses hitting the department default project, on Flow Through awards that are funded incrementally and where:

- Carryover requires prior approval and/or
- A new Subaward or PO number is issued yearly by the sponsor

Effective immediately, for these types of awards, OPAFS **will set up the projects in advance for anticipated incremental funding in OFC**. The departments will be able to manage the projects and incur expenses as appropriate. This includes but is not limited to all NIH FFT awards and all VMRF awards. [Learn more](#).

**Tasks to Projects, Project Personnel Update**

We are currently working on testing the full re-conversion and project personnel in DEV and are on track to complete by end of May. Errors have been identified in the Project Personnel Assignment requests. We are working on an output report for you to review next week for any last-minute changes you would like to make through this process. Files will be ready on 5/18 and you will need to submit your corrections by 5/21. Look for an update including additional

If you have additional questions about returning your Scrip, please reach out to the Banking Services team via Services & Support.
View Outstanding PO Commitments
You can view POs which are still committed on your ledger by going to the Business Analytics Hub. Go to the Budget & Finance tab, the Procure to Pay Panoramas tab, then click Run Report on the UCSD-DSH Procure to Pay Panorama. Once on the report, go to the PO Outstanding Commitments tab. You may query by several fields - including project, task, and financial unit - to view POs which currently have commitments.

Lift PO Commitments in Oracle Procurement
If you are noticing PO commitments on your PPM ledger, you may lift them by closing out the PO in Oracle Procurement. If the PO has not been invoiced, you may cancel the PO via a change order. If the PO has been partially invoiced, you may reduce the PO to what has been invoiced via a change order. This process is outlined in our KBA on closing Purchase Orders.

Lift Legacy/Marketplace PO Commitments
Commitments associated with POs eight digits long beginning with a 9 may be lifted by submitting a case via Services & Support to ask the POs be closed. You may use the service offerings: Buying Goods & Services - Oracle Procurement - Revising or Canceling an Order. Please note that requesting a Marketplace PO to be closed will prevent further invoicing against the PO.

Searching for Approvers
When searching for a Department Head or Special Entertainment approver, you can type % into the Approval Flow search bar to bring up a list of available approvers. Once the list has loaded, you can quickly select the appropriate approver.

Event Expense Report Header
When completing the header for an Event Expense Report, you have three options for Payee Type: Employee, Student, T/E Supplier.
1. If the host paid out of pocket and/or with their Travel & Entertainment (T&E) Card, select Employee as the Payee Type.

2. If the individual to be reimbursed/paid is a non-employee student, then select Student.

3. If this expense report is a prepayment, or direct payment to an event supplier, select T/E Supplier.

The option, T/E Supplier, should only be used when requesting direct payments to the event supplier. This helps identify in Concur that payment is to be issued to the non-employee payee.

When the User pays with their Travel & Entertainment (T&E) Card, the proper Payee Type on the header is Employee. Concur will indicate on the expense entry level when the payment method is the T&E Card.
