Oracle Planning and Budget (EPBCS) Update Alert: Faculty Planning Changes including Task 2.2, Budget Amount and Labor Contingency Calculation

After consultation with Academic Personnel Services, CBO determined that several fixes were required in the faculty planning process to align budget data entry with standard central compensation funding practices. As of Friday, March 4, the following updates were rolled out in the EPBCS production (Planning) environment:

1. Column header updates on Task 2.2 for added clarity:

   ![Column header updates](image)

2. Program Increases are now appropriately applied on top of both “Scale Pay” and “Above and Off Scale Salary” on Task 2.2 and 2.6.

3. “Budgeted Amount” is now calculated as **Budget FTE % * Total Base Salary**.
   a. **Note:** for units showing Labor Contingency savings as of March 4, the amount flowing through to Task 4.2 will have increased based on this logic change. Please double check your core recurring total expense totals on Task 4.2 after this change.
No changes were required for the Budgeted Amount or Labor Contingency Savings calculations for Staff planning on Task 1.2.

New Enhancement! Financial Unit and Project Validation Rule Implemented

- **Where this applies:** Staff and Faculty Tasks 1.2 and 2.2 when using the right-click menu options: Add Distribution Line, Transfer Employee, Create Vacant Position, Create Vacancy on Existing Position and Tasks 4.2, 5.1 and 5.2 when using the right-click menu option to Add New Account

- **Result:** If the user enters a Project number from a different Financial Unit than is in the point-of-view (POV) of the form, a new error message will display and the rule will not run and data will not save.

REMINDER! The FY23 budget entry deadline is Friday, April 1. At that time, the budget system will be locked for entry and will become view-only for budget preparers.
