Announcements

Closing Legacy Purchase Orders

Legacy Purchase Orders (POs) are orders which originated in Marketplace prior to June 2020 and begin with a 9. As these POs are now a couple years old, and the general lifecycle of a PO should be one year, IPPS (Integrated Procure to Pay Solutions) would like to consider closing all outstanding legacy POs. Please [complete our poll](#) to provide feedback on whether we should or should not move forward with doing so.

Update on UC Annual Financial Report for Fiscal Year 2022

Internal Controls & Accounting (ICA) is pleased to announce that the UC Office of the President (UCOP) has presented the 2022 UC Annual Financial Report to the UC Regents on Wednesday, November 16th. Thank you to all of our partners across UC San Diego, in Foundation, Health Systems and Campus financial offices and departments, who contributed to the fiscal closing process.

All of our work and collective contributions have led to the publication of this system-wide financial report. You can view our system-wide annual financial reports published by UCOP [here](#).

Coming up next is the preparation and publication of our campus [Detailed Financial Schedules](#) for fiscal year 2021-2022. We hope to have the report complete soon after the December campus closure.

Interlocation Transfer of Funds (ILTF)

If sending ILTF from UCSD to another campus, the December submission deadline is **December 10th** for processing.

Journal Entry Supporting Documentation

To stay in compliance with UC policy, all Journal submissions are required to have supporting documentation attached to the entry. Journals will be rejected without supporting documentation including chartstring transactions with account 774009 - Fund Balance Transfer (Debit/Credit).

General Ledger (GL) COA Segments Needs VC Approval

For any new GL segment requests or changes to existing GL segments, VC approval with justification is required to be attached to the Services & Support ticket. GL segments include: Account, Financial Unit, Fund, Activity and Location. Internal Controls & Accounting (ICA) will have final review and assessment of the submitted requests. For GL segment Account, new Accounts will be limited because it is recommended to use Expenditure Types for reporting and tracking. VC approval is not required for Expenditure Type requests because it is not a GL COA segment.

Concur Lag Update

Concur is investigating a lag in their service across North American customers. You may experience slowness, errors, or see documents taking a little longer to pass through COA/POETAF validation. We appreciate your patience as we work with SAP Concur to get this resolved.

Pending Card Transaction lines in Concur

A Pending Card Transaction line under your **Available Expenses** section means that a reservation or travel booking was made in Concur or through Balboa Travel. These expense lines with the Payment Type of *Pending Card Transactions* are placeholders for the actual expense and do not represent charges to a UCSD Card product. These expense lines should not be added to an Expense Report, and should be deleted to avoid any confusion. To delete those expenses select the box next to the expense line, and then click on the **Delete** button. Please make sure to only move expenses with the Payment Type of UCSD CTS Air Hotel Card or T&E Card to an Expense Report.

In the example below, the first two expense lines would need to be deleted, and the third expense would need to be moved to an Expense Report to reconcile the charge.

Oracle: Buying and Paying for PO Requisitioners

Thursday, December 1, 2022

9:00am - 11:00am

This course includes hands-on instruction on the use of Oracle Procurement & Payables. It focuses on topics such as shopping for and purchasing goods and services, searching across UC San Diego requisitions and POs, closing POs,

processing nonPO payments, and checking invoice status. This course will be especially valuable for individuals responsible for departmental purchases who want to further their understanding of buying on campus.

Please note the [Introduction to Oracle Procurement & Payables eCourse](#) is a required prerequisite for registration.

[Reporting Workshop: Dashboard of the Week Series](#)

Monday, December 14, 2022

11:00am - 12:00pm

Join us virtually each week as we dedicate time to training on a specific dashboard or report. The workshop format will include an interactive report demo, discussion of what questions the report can answer, opportunities to ask questions and walk through your use cases, and hear how others are using the dashboard or report. Next week's session will feature the **Default Project Payroll: Advanced Topics**. This will be our last session of the year and the series will resume in January 2023!

Tips & Tricks

Closing Purchase Orders

You can request that any legacy or Oracle PO be closed via Services & Support ticket! If you need to close any POs to lift their commitments, please first confirm all goods and services have been fully paid for on this PO, and no further invoices are expected. Then, you can submit a case via [Services & Support](#) (Buying Goods & Services – Oracle Procurement – Revising or Canceling an Order) with a list of POs and a confirmation of the latter statement. All POs submitted before the last week of the month will now be closed and have their commitments lifted in the following month.
